Full-stack developer with hands-on experience building dynamic, secure, and responsive web applications using the MERN stack and modern web technologies. Delivered production-ready features including authentication, CRUD operations, real-time data handling, and API integrations. Strong collaborator with exposure to Agile workflows, CI/CD, and deployment on modern cloud platforms. Interested in MERN, full-stack, frontend, and backend roles.

EXPERIENCE

MERN STACK DEVELOPER

JUN 2025 – JULY 2025

CreArt Solutions Pvt. Ltd., Ahmedabad

- Built modules for an Employee Management System using the MERN stack, implementing secure authentication, CRUD operations, and dynamic employee record handling.
- Integrated JWT-based auth, role-based permissions, and input validation to strengthen API security and data integrity.
- Debugged and optimized API endpoints and React components for better reliability and responsiveness.
- Tech: MongoDB, Express.js, React.js, Node.js, Mongoose, JWT, Postman, Git

PROJECTS

Hotel Booking System [\[GitRepo\]](#)

Tech: PHP, MySQL, HTML, CSS, JavaScript, PHPMailer

- Developed a full-stack booking platform with secure user authentication, real-time room availability, booking management, and cancellations.
- Integrated PHPMailer with Gmail SMTP to send confirmation emails and booking updates; designed a fully responsive UI for mobile and desktop.

Medical Image Enhancer [\[Link\]](#)

Tech: Flask, TensorFlow, HTML, CSS, JavaScript

- Built an AI-powered Flask web app for enhancing grayscale medical images (X-rays, CT) using pretrained EDSR models for real-time upscaling.
- Implemented file upload/download, inference pipeline, and deployed on Hugging Face Spaces for public access.

Weather Dashboard [\[GitRepo\]](#)

Tech: React, Node.js, Express, MongoDB, Tailwind CSS

- Created a dynamic weather application with real-time data and 5-day forecasts, animated charts, dark mode, and city search.
- Ensured responsive design and smooth UX with optimized API calls and state management.

Password Manager [\[GitRepo\]](#)

Tech: MongoDB, Express, React, Node.js, Tailwind CSS

- Built a secure MERN-based password manager with encrypted password storage, authentication, password strength meter, and modern responsive UI.
- Added features like copy-to-clipboard, dark mode, and custom encryption for enhanced usability and security.
